## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments filed 09/30/05 have been fully considered but they are not persuasive. The 102 rejection is being maintained.

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1-3, 5, 6, 8 and 12 are rejected under 35 U.S.C. 102(e) as being anticipated by Braunlich et al.
3. The Applicant is referred to the description of Braunlich et al. in the first Office action.

The Applicant has argued that in the claimed invention, "in order to play a particular character card, the player must have one or more cost payment cards.....the player must have one cost payment card with a 'star' symbol and three cost payment cards with a 'bullet' symbol thereon". This is a **game rule**. **Game rules have no limiting affect in game apparatus claims. See Examiner's remarks in previous Office action.**

The Applicant has also argued against Braunlich stating, "that the symbol 114 in the 'battle card 100' is **not related**, in any way, to the symbol 304 indicated on the 'cost payment card 300". The Applicant further recites that "the present invention, as defined in claims 1 and 6, requires that the symbol on the cost payment card be the **same** as the symbol on the battle cards".

The Examiner takes the position that Braunlich's cost payment cards 300 have symbols 304 that represent location and category col. 8, lines 38-49. Each of Braunlich's battle cards 100 have a symbol 114 thereon indicating the cost required to place the battle card on the play field, col. 7, line 66 to col. 8, line 2. These indicia 304 and 114 are broadly related in that both these indicia 304 and 114 are required to be used in playing Braunlich's game. The indicia 304 have letters of the alphabet "M", "A", "R", "S". Also the indicia 114 also have letters of the alphabet "I", "I". Thus, indicia 304 and 114 are broadly the same.

***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
